## About Me

I'm a recent graduate from The Iron Yard's Mobile Engineering course: a rigorous 10-12 hours a day, 12-week course wherein I learned the essentials of iOS Development. I quickly discovered a passion for programming and development.

I'm always ready and eager to take on new challenges; I'm excited to earn a position where I can channel this enthusiasm and apply my passion for development.

I'm very comfortable with Swift and Objective C and study HTML and CSS in my free time.

### Languages

- Swift
- Objective C
- HTML
- CSS
- Jekyll

### Tools

- Xcode
- Github
- Atom
- Terminal
- Bootstrap

### I am

- Passionate about development
- Eager to take on new challenges
- Self-motivated

## Experience

### The Iron Yard 10/2015 – 1/2016

Mobile Engineering Student

Learned the essentials of iOS Development in an immersive 12-week course. Hands-on, rigorous, and intense, the course had us working deeply with Github and Xcode and learning and coding with Swift and Objective C 10-12 hours a day. By the end of the first week, the homework for each night was a light (but full-featured) iOS application.

Gained experience in:

- Swift
- Objective C
- Github
- RESTful APIs
- CoreData
- NSCoding
- CocoaPods
- Parse
- Realm
- Paired/Team Programming
- UI/UX
- Storyboarding
- Project/Task Management
- Deadline Management

## Education

### The Iron Yard 10/2015 – 1/2016

Mobile Engineering Student

### Madison Area Technical College 2012 – 2014

Liberal Arts and Sciences

Was a member of the Phi Theta Kappa Academic Society and customarily made the Dean's List and achieved High Honors in attended semesters.

## Work History

### Calvary Baptist Church 1/2016

Website Developer

[saintpetercalvarybaptistchurch.org](http://saintpetercalvarybaptistchurch.org)

As the sole developer on this project, I took on the full responsibility of developing the website for Calvary Baptist Church in St Peter, MN.

- Utilized Atom and Github for coding and version control
- Used Bootstrap, HTML, CSS, and Jekyll to build the framework of the website
- Used Photoshop to create the various website graphics
- Set up professional church domain email addresses for church staff

### Cole Haan 5/2014 – 12/2014

Shoe Mechanic

- Provided expert craftsmanship, banter, and advice while customizing quality leather shoes for clients.

- Provided friendly customer service and interaction (shoe advice, fittings, and fashion consultation)

- Demonstrated expert and precise manual dexterity

I was also expected to fulfill the expectations of a sales associate position; including responsibilities such as sales goals, inventory organization/stocking, and installation of visual floor sets.

### Taco Bell 9/2014 – 5/2014

Shift Manager

I started this position as a Team Member, but demonstrated a capability for leadership and a desire to exceed expectations and quickly rose to a managerial position.

- Maintained excellent customer service
- Coordinated employee positions and responsibilities and
- Provided feedback and communication to employees
- Maintained cash, security, inventory, and labor policies and procedures

As one of the primary closing managers, I also performed necessary inventory control, labor and cost calculation, and other necessary end of day procedures.
